Skills

Proficient: HTML, CSS, JavaScript, TypeScript, PostgreSQL, Git, Github

Moderate: Node.js, Express.js, Jasmine, AWS, CircleCI, React.js

Projects

Weather-App: [See Live](#) [Source Code](#)

- Converted a provided [Udacity](#) simple HTML page into a responsive one page app that listens to a server and fetches weather data from API for any city.

Smart-Brain: [See Live](#) [Source Code](#)

- Created from scratch a full React.js single page app with server and database.
- It uses [Clarifai](#) external API to detect faces in a provided photo.

Robo-Friends: [See Live](#) [Source Code](#)

- Created from scratch a React.js single page app that fetches robots and display them dynamically on page and search for each using a search bar.

Work Experience

Civil Engineer

Apr. 2021-Jun.2021

Dr. Ahmed Samir's Office, Zagazig:

- I worked as a Site Civil Engineer and lead a team of workers to construct a 3-storey-building.
- I handled the drawings and made sure that we meet the requirements and specifications of the requested building.
- I also made sure that we finish the construction works on time by ordering two cement mixers instead of one.
