Skills

Proficient: HTML, CSS, JavaScript, Bootstrap, Git, GitHub

Moderate: PostgreSQL, Express.js, Node.js, React.js

Projects

Weather-App: See Live   Source Code

- Converted a provided Udacity simple HTML page into a responsive web app that listens to a server and gets info from an API to get weather info for any city.

Smart-Brain: See Live   Source Code(React)   Source Code(Server&Database)

- Created from scratch a full web app with front-end, server and database.
- It uses Clarifai API to detect faces in a provided photo.

Robo-Friends: See Live   Source Code

- Created from scratch a react-app that uses API to get robots and display them dynamically on page.
- It has search functionality.

Work Experience

Civil Engineer   April. 2021- Jun. 2021

Dr. Samir's Office, Zagazig

- I worked as a Site Civil Engineer and lead a team of workers to construct a 3-storey building.
